I-20 Request Process and Funding for International Applicants

The GEMS advisors issue a high volume of I-20s for F-1 visa applications annually, for new international graduate students. Please help us process your new students’ I-20s as efficiently as possible by reviewing the information below.

If you are offering department financial support (e.g., RA/TA/Fellowship/International Tuition Waiver) to an international graduate applicant:

- Complete the Graduate Funding Detail page (See instructions on page 2)
  - To access, go to MGP >> View Applicants >> the student’s Application >> Funding Info tab.
  - Note: we can’t process the I-20 without this departmental funding information entered here.
- Department should provide a formal admission letter outlining the funding support, on letterhead to the applicant for the visa interview.

When international applicants....

- Ask you questions about the UW I-20, direct them to our Financial Ability Requirement page (recently updated for readability!)
- Ask for a UW I-20, advise them to login to the online application and download the UW I-20 request form via the pre-registration page.  
  Note: Students must accept the offer of admission in the online application via payment of the ECD, and then they will have access to the I-20 request form.
- Ask for your help in completing the I-20 request form, refer them to GEMS.
- Send you financial documents (i.e., bank statements), shred them to protect the student’s privacy!
- Want to know the status of their I-20, advise them to login to their online application and go to the pre-registration page where they can check their processing status.
